

SUBWOOFER RH-STS SUB 18CE

Single High Power 18 inch Subwoofer

Provides high-impact, 124dB sub-bass performance (1000W AES)

High Power Bass Cabinet

The SUB 18CE bass cabinet was developed as a companion to other STS Series loudspeakers in applications that require additional sub frequency energy. Its skilfully tuned and vented design allows the STS 18CE to function effectively as a sub frequency cabinet. It offers unparalleled sub performance from a compact 20° trapezoidal cabinet.

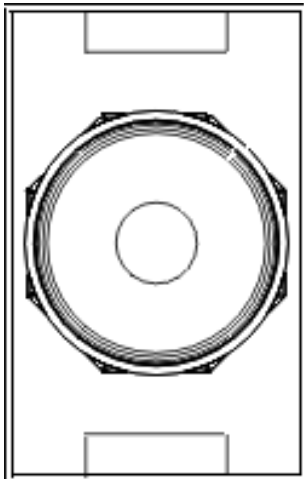

Heavy Duty Enclosure

The STS SUB 18CE enclosure is ruggedly constructed from durable 13-ply cross-laminate hardwood to withstand the abuse it will receive in portable applications. The enclosure is heavily braced and lined with fibreglass to suppress resonances and eliminate rattles, thus assuring low-distortion, high-level performance. A heavy perforated steel grille with moisture resistant foam backing is provided to protect the woofer from physical damage.

Powerful 18 inch Subwoofer

The STS SUB 18CE subwoofer was developed for high level entertainment applications that require the visceral impact obtainable only from 18" subwoofers. Its skilfully design and powerful 1000 watt woofer enable the STS SUB 18CE with its single 18inch woofer to outperform most dual 18" subwoofers.

SENSITIVITY:	94dB (1w/1m) @ 50Hz
MAXIMUM SPL:	124dB
FREQ. RESPONSE:	32Hz to 80Hz
LOW DRIVER:	18" Woofer, 8Ω; 1000W AES
ENCLOSURE:	13 ply hardwood, heavily braced
GRILLE:	Perforated metal grille with moisture resistant foam insert
CONNECTOR:	8-pin Neutrik
FINISH:	Black carpet
AEROQUIP TRACK:	Model FT2-C3 side mounted
HARDWARE:	Handles
DIMENSIONS:	32.5"H x 21"W x 23.75"D (82.6cm x 53.3cm x 60.3cm)
NET WEIGHT:	114.6 Lbs. (52.6 Kg)
